Lumio by Max Gunawan

As cities grow ever larger, the individual's space becomes increasingly precious. Born in Jakarta and based in San Francisco, Max Gunawan has experienced first-hand the challenges of confined quarters.

Inspired to help people live larger in a small space, Gunawan designs objects that unexpectedly transform into multiple shapes and functions. Equal parts simplicity, beauty and utility, Lumio is his first product to embody this idea.

Lumio is a modern lighting solution that lets you experience beautiful lighting wherever you are. Closed, the lamp takes the shape of a hardcover book. Open, it becomes a sculptural lamp with the versatility to fit any space.
